

Issue #10, October 2016

## Curriculum Work : Years 1 and 2 are on paper!

The Office of Academic Affairs extends its thanks to faculty for their work on getting the year 1-2 draft of our educational program on paper.

As we continue to find ways to improve on the quality of the pre-clerkship program, faculty paused in their planning in order to critically examine the organization of those years in view of the planning accomplished so far. A recent series of weekly meetings has produced a new schematic where formal time is allocated to comprehensive assessments and an optimized sequence of courses is designed. The new schematic will be presented at an upcoming meeting of the Transition Curriculum Committee.

Thank you to Renee Coffman for joining a faculty discussion meeting on October 14. During the hour, we continued exploring assessments in medical education, in the context of the Roseman Mastery Learning approach.

---

## This and that around the College...

- Dr. Tom Hunt has published a Medical Student Bridge Program Case to the AAMC MedEdPORTAL peer-reviewed collection. The resource guides medical students through initial steps of thinking through a clinical scenario; it can be accessed [here](#).
- Dr. Rouel Roque has been reviewing grants for the American Heart Association.
- The Roseman Medical Group (RMG) recorded its first payment for medical services on October 17, 2016. *Congratulations to RMG and many more!*
- Dr. Chris Burns has been reviewing grants for the Department of Defense.
- The "COM Chat and Learn" series has been sponsoring public service-type events for faculty and staff at the Summerlin Campus. Thank you to attendees for the Home Preparedness and Living Will events.
- Dr. Bruce Morgenstern was visiting professor in Pediatrics and Medical Education at Our Lady of the Lake Regional Medical Center in Baton

## Welcome new faculty

Dr. Jaya Pamidimukkula joined the Department of Biomedical Sciences in April 2016, from Touro University Nevada. Dr. Pamidimukkula pursued doctoral and post-doctoral work in pharmacology at the University of Missouri-Columbia. She holds a FPGEC license and was on faculty of the School of Pharmacy at the University of Houston. She has taught in online and classroom settings, in the areas of neuroscience, pharmacology and scientific communications.

Dr. Alvin Lin joined the Department of Family Medicine in August 2016. Dr. Lin is a board-certified family physician and geriatrician. He has held academic positions at several medical schools and received numerous Top Doctor awards. Dr. Lin has lectured and published nationally on many topics related to the fields of geriatrics and health and is involved with many local nonprofit organizations such as the Clark County Alzheimer's Action Network.

Dr. Carolyn Glaubenslee joined the Department of Biomedical Sciences in September 2016. She was most recently Associate Professor of Physiology at A.T. Still University School of Osteopathic Medicine and has extensive experience in medical student education in both discipline-specific and interdisciplinary course settings. She obtained her graduate degrees from the University of New Mexico School of Medicine.

## LCME accreditation process launch set for November.

Please join the Office of Academic Affairs on Tuesday November 1st at 3pm, for a get-together to launch our accreditation process.

Our various documents received favorable comment, yet the Data Collection

Instrument will require review and editing to reflect progress. Let's get this process off to a great start with a toast and cookies. Watch for an invitation!
